

# GREEN SPRINGS RANCH EMERGENCY EXIT OPTIONS

May 2020

This information sheet was developed to provide options for exiting Green Springs Ranch during an emergency, such as an evacuation due to fire, when the main exit to Green Valley Road is unsafe or blocked.

**Clarksville Exit:** The fire department knock lock is to be used only if Green Springs Ranch is ordered by law enforcement to evacuate. The gate is to be opened only in the event of an evacuation notice and is subject to \$1,000 fine if opened for any other reason.

**Howard & Carl Exits:** These exits should be used only when other exits are inaccessible. The information represents opinions from a visual inspection and assumptions based on the terrain that could be handled by some 4-wheel drive vehicles with ample ground clearance.

**Disclaimer:** This information sheet was developed by volunteer property owners in Green Springs Ranch who are not responsible for the accuracy of the content. It is strongly suggested that all property owners individually assess each exit before an actual emergency occurs to verify the accuracy of the content presented above.
